Year 6 Living Things and their Habitats Knowledge Organiser

Living things can be grouped in different ways.

Classification keys help to group and sort living things.

Micro-organism	A tiny organism, such as bacteria, viruses and fungi.	
Bacteria	Micro-organisms that are too small to be seen by the human eye.	
Virus	Micro-organisms that can multiply only inside the living cells of another organism.	
Fungi	A group of organisms including mushrooms, mould and yeast.	

There are **seven** characteristics of living things.
