

September, 2022

Dear Parents/Carers,

Year 6 are planning an exciting summer project to create some beautiful artwork to display around the school corridors and outside areas. With recycling being so important for the environment, we would like the children to make the artwork out of bottle tops but we will need hundreds and possibly thousands of these so we would like your help please. We would welcome donations of bottle tops/ caps similar to those in the pictures below. These could be from milk and juice cartons and drink bottles- all colours are welcome! 😊

In reward for the children helping, we will be offering **1 credit for every 5 bottle tops brought in and 2 extra credits if bags of bottle tops are sorted into different colours** to save the Year 6 children time when preparing to make the designs. Below are some example pictures which have been made from bottle tops and we will look forward to our children designing their own fantastic exhibition work!

Many thanks for all your help,

Year 6 Team
